PROGRAM » FRIDAY, OCTOBER 1, 2010

09.00 – 10.30 a.m. ▶ 1st PART ▶ WORKSHOPS

- 1.1 **Sybron Implant Solutions Dr. (Univ. Dam) Pierre Winkelmann/Berlin**
Why reinvent the wheel? Reliable osseointegration and preservation of the crestal bone with excellent esthetic results – Sybron XRT – the bone level implant.
- 1.2 **Henry Schein Dr. Dirk G. Bruns/Greifswald**
alphatech® – linked with laboratory and practice – Theoretical part
- 1.3 **NMT DS Sabine Rösler/Reinhardtgrinna**
Laser application in modern dental practices specially considering implantological indications. Practical training on porcine jaws and extracted teeth using different wavelengths – Part I
- 1.4 **ARTOSS Dr. Dr. Jens Meier/Bremerhaven**
Using NanoBone®: Different applications for all kinds of indications (Hands-on-Workshop)
- 1.5 **bredent ZA Sven Hangert/Stuhr**
Immediate restoration – Implantation in the edentulous jaw according to the SKY fast & fixed concept (workshop and practical training on dental phantom heads).
- 1.6 **BIOHORIZONS Dr. Marc Hansen/Dortmund**
Predictable results for complicated soft and hard tissue findings – Predictable Results
- 1.7 **DENTAURUM Dr. Friedhelm Heinemann/Morsbach**
Three-dimensional planning as a basis for precision and security.

10.30 – 11.00 a.m. Break/Visit of the Dental Exhibition

11.00 a.m. – 12.30 p.m. ▶ 2nd PART ▶ WORKSHOPS

- 2.1 **Sybron Implant Solutions Dr. Achim W. Schmidt, M.Sc./München**
Implantation in case of heavily reduced bone quantity in the posterior maxilla. Alternatives for avoiding lateral access measurements. Learn the indirect sinuslift method for bone levels below 5 mm. Practical training on models will show you the possibilities of the osteotomy technique for extreme case situations.
- 2.2 **Henry Schein Dr. Dirk G. Bruns/Greifswald**
alphatech® – linked with laboratory and practice – Practical part
- 2.3 **NMT DS Sabine Rösler/Reinhardtgrinna**
Laser application in modern dental practices especially considering implantological indications. Practical training on porcine jaws and extracted teeth using different wavelengths – Part II
- 2.4 **OT medical Dr. Pascal Black, M.Sc., M.Sc./München**
The perfect combination of the latest generation of Pore and screw implants with an identical prosthetic platform.
- 2.5 **BIOMET 3i Dr. Marc Hinz/München**
Implantation protocol adapted for bone density – Hands-on-Workshop using the model of the porcine vertebral body.
- 2.6 **Schütz Dental Dr. Mazen Tamimi/JO**
Impla 3D Navigation, the future of implant dentistry (Workshop – please provide your personal Lap Top)
- 2.7 **Bicon Prof. Dr. Mauro Marincola/Rom (IT)**
Applying modern implantological measures in order to minimize augmentative concepts.
